Tyers Primary School – Child Safety Policy

Purpose of this Policy
Tyers Primary School is a community focused school that strives for excellence. Our aim is to empower students to acquire, demonstrate, articulate and value the self-motivation, skills and knowledge that will support them, as life-long learners, to participate in and contribute to live a fulfilling life as a productive member of the global society. We encourage our students and families to practise the core values of the school: respect, compassion, integrity, empathy, advocacy and courage.

Everyone in society has a moral responsibility to keep children safe and to protect them from harm. Tyers Primary School is committed to the safety and wellbeing of children and young people. Our school community recognises the importance of, and a responsibility for, ensuring our school is a safe, supportive and enriching environment which respects and fosters the dignity and self-esteem of children and young people, and enables them to thrive in their learning and development.

Rationale
All Victorian schools are required to have a child safety policy or statement of commitment to child safety that details:

- the principles that will guide the school in developing policies and procedures to create and maintain a child safe school environment; and
- the actions the school proposes to take to:
  - demonstrate its commitment to child safety and monitor the school's adherence to its child safety policy;
  - support, encourage and enable school staff, parents, and children to understand, identify, discuss and report child safety matters; and
  - support or assist children who disclose child abuse, or are otherwise linked to suspected child abuse.
  - Ensure that child safety is considered in the recruitment, selection and management of staff (includes contractors and volunteers)

Ministerial Order No. 870 (available at www.vrqa.vic.gov.au/childsafe) states that Child abuse includes;

- Any act committed against a child involving –
  - A sexual offence or
  - An offence under section 49 B (2) of the Crimes Act 1958 (grooming),
- The infliction, on a child, of –
  - Physical violence or
  - Serious emotional or psychological harm, and
- Serious neglect of a child.

Statement of Commitment to Child Safety
Tyers Primary School is committed to safety and wellbeing of all children and young people. This will be the primary focus of our care and decision-making.

Tyers Primary School has zero tolerance for child abuse.

Tyers Primary School is committed to providing a child safe environment where children and young people are safe and feel safe, and their voices are heard about decisions that affect their lives. Particular attention will be paid to the cultural safety of Aboriginal and Torres Strait Islander children and children from culturally and/or linguistically diverse backgrounds, as well as the safety of children who are vulnerable or have a disability.

Every person involved in Tyers Primary School has a responsibility to understand the important and specific role he/she plays individually and collectively to ensure that the wellbeing and safety of all children and young people is at the forefront of all they do and every decision they make.
Tyers Primary School’s principles for child safety.

In its planning, decision-making and operations Tyers Primary School will:

1. Take a preventative, proactive and participatory approach to child safety;
2. Value and empower children to participate in decisions which affect their lives;
3. Foster a culture of openness that supports all persons to safely disclose risks of harm to children;
4. Respect diversity in cultures and child rearing practices while keeping child safety paramount;
5. Provide written guidance on appropriate conduct and behaviour towards children;
6. Engage only the most suitable people to work with children and have high quality staff and volunteer supervision and professional development;
7. Ensure children know who to talk with if they are worried or are feeling unsafe, and that they are comfortable and encouraged to raise such issues;
8. Report suspected abuse, neglect or mistreatment promptly to the appropriate authorities;
9. Share information appropriately and lawfully with other organisations where the safety and wellbeing of children is at risk; and
10. Value the input of and communicate regularly with families and carers.

Code of Conduct

This Code of Conduct aims to protect children and reduce any opportunities for child abuse or harm to occur. It also assists in understanding how to avoid or better manage risky behaviours and situations. It is intended to complement child protection legislation, Department policy, school policies and procedures and professional standards, codes or ethics as these apply to staff and other personnel. This Code of Conduct should be read in conjunction with the Tyers Primary School, Statement of Values as delineated in Appendix 1 of the Tyers Primary School Student Engagement and Inclusion Policy.

The Principal and school leaders of Tyers Primary School will support implementation and monitoring of the Code of Conduct, and will plan, implement and monitor arrangements to provide inclusive, safe and orderly schools and other learning environments. The Principal and school leaders of Tyers Primary School will also provide information and support to enable the Code of Conduct to operate effectively.

It is crucial that child safety is part of the everyday thinking and practice of all within the school and wider community. A Child Safety Officer will be designated to provide authoritative advice to all staff, raise awareness about child safety at Tyers Primary School including ensuring the school’s relevant policies are known and used appropriately and undertake training to ensure relevant skills and knowledge are current. At Tyers Primary School the Principal is the Child Safety Officer.

All staff, contractors, volunteers and any other member of the school community involved in child-related work are required to comply with the Code of Conduct by observing expectations for appropriate behaviour below. The Code of Conduct applies in all school situations, including school camps and in the use of digital technology and social media.

Acceptable behaviours

As staff, volunteers, contractors, and any other member of the school community involved in child-related work individually, we are responsible for supporting and promoting the safety of children by:

- upholding the school’s Statement of Commitment to Child Safety at all times and adhering to the school’s child safe policy,
- treating students and families in the school community with respect both within the school environment and outside the school environment as part of normal social and community activities,
- listening and responding to the views and concerns of students, particularly if they are telling you that they or another child has been abused or that they are worried about their safety/the safety of another child,
- promoting the cultural safety, participation and empowerment of Aboriginal and Torres Strait Islander students,
- promoting the cultural safety, participation and empowerment of students with culturally and/or linguistically diverse backgrounds,
- promoting the safety, participation and empowerment of vulnerable students and students with a disability,
- reporting any allegations of child abuse or other child safety concerns to the school’s leadership.
- understanding and complying with all reporting or disclosure obligations (including mandatory reporting) as they relate to protecting children from harm or abuse, and
- if child abuse is suspected, ensuring as quickly as possible that the student(s) are safe and protected from harm.

Unacceptable behaviours

As staff, volunteers, contractors, and any other member of the school community involved in child-related work we must not:
- ignore or disregard any concerns, suspicions or disclosures of child abuse,
- develop a relationship with any student that could be seen as favouritism or amount to ‘grooming’ behaviour (for example, offering gifts),
- exhibit behaviours or engage in activities with students which may be interpreted as abusive and not justified by the educational, therapeutic, or service delivery context,
- ignore behaviours by other adults towards students when they appear to be overly familiar or inappropriate,
- discuss content of an intimate nature or use sexual innuendo with students, except where it occurs relevantly in the context of parental guidance, delivering the education curriculum or a therapeutic setting,
- treat a child unfavourably because of their disability, age, gender, race, culture, vulnerability, sexuality or ethnicity,
- communicate directly with a student through personal or private contact channels (including by social media, email, instant messaging, texting etc) except where that communication is reasonable in all the circumstances, related to school work or extra-curricular activities or where there is a safety concern or other urgent matter,
- photograph or video a child in a school environment except in accordance with school policy or where required for duty of care purposes\(^1\), and
- in the school environment or at other school events where students are present, consume alcohol contrary to school policy\(^2\) or take illicit drugs under any circumstances.

\(^2\) SPAG: [http://www.education.vic.gov.au/school/principals/spag/safety/pages/alcohol.aspx](http://www.education.vic.gov.au/school/principals/spag/safety/pages/alcohol.aspx). The policy says the school must obtain school council approval before alcohol can be consumed on school grounds or at a school activity. The policy says staff members should not consume alcohol during camps and excursions. It is silent on whether they can consume alcohol at other school events where students are present, this is a matter that the school needs to decide upon.
Human resources practices & training

The school applies best practice standards in the recruitment and screening of staff, and will take all reasonable steps to ensure that it engages the most suitable and appropriate people to work with them. We will ensure that staff induction, education and training programs are a vital part of our commitment to safeguarding children and young people from abuse and neglect. All prospective staff and volunteers are required to undergo National Criminal History Records check and maintain a valid Working with Children Check as required by Department of Education and Training recruitment policies.

As part of their initial induction to the school, staff will be informed of child protection reporting requirements and DET policy, and will be directed to DET online training Protecting Children – Mandatory Reporting and Other Obligations – e-learning module. All staff will complete the e-learning training upon employment at Tyers Primary School and undertake a refresher course bi-annually. Completion of the elearning training will be recorded in the relevant staff register (refer Staff Registers Policy).

Reporting child protection concerns

Mandatory reporters, who believe on reasonable grounds that a child or young person is in need of protection from physical injury or sexual abuse, must report their concerns to Department of Health and Human Services (DHHS) Child Protection.

All other school staff members who form a belief on reasonable grounds that a child or young person:
- is in need of protection, should report their concerns to DHHS Child Protection or Victoria Police.
- is displaying sexually abusive behaviours and is in need of therapeutic treatment should report their concerns to DHHS Child Protection.

If staff have significant concerns for the wellbeing of a child or young person they should report their concerns to DHHS Child Protection or Child FIRST.

In cases where staff have concerns about a child or young person, they should also discuss their concerns with the principal or a member of the school leadership team.

Reporting criminal child sexual abuse - failure to disclose offence

Any staff member who forms a reasonable belief that a sexual offence has been committed in Victoria by an adult against a child under 16 must disclose that information to police. Failure to disclose the information to police is a criminal offence, except in limited circumstances such as where the information has already been reported to DHHS Child Protection.

The offence applies to all adults in Victoria, not just professionals who work with children. To read more information about the ‘failure to disclose’ offence, see: Department of Justice and Regulation – Failure to disclose offence.

Duty of care

Tyers Primary School staff have a duty of care to protect the safety, health and wellbeing of children in their care. If a staff member has concerns about the safety, health and wellbeing of children in their care they should take immediate action.

In the case of a child who may be in need of protection or therapeutic treatment, or where there are significant concerns about the wellbeing of a child, school staff can discharge this duty of care by taking action which includes the following:
- reporting their concerns to the DHHS Child Protection or another appropriate agency (as identified above),
- notifying the principal or a member of the school leadership team of their concerns and the reasons for those concerns.
Protecting children from the risk of sexual abuse - failure to protect offence

Any staff member in a position of authority, who becomes aware that an adult associated with their organisation (such as an employee, contractor, volunteer or visitor) poses a risk of sexual abuse to a child under the care, authority or supervision of the organisation, must take all reasonable steps to remove or reduce that risk. This may include, for example, removing the adult from child-related work pending investigation. If a staff member in a position of authority fails to take reasonable steps in these circumstances, this may amount to a criminal offence.

The offence applies only to adults in a position of authority within an organisation, including Principals, senior school staff, regional directors and other senior managers.

To read more information about the 'failure to protect offence', see: Department of Justice and Regulations – Failure to protect offence  Note: Department policies already require school staff to uphold a high standard of care in relation to child safety and wellbeing.

For more information about managing and responding to the risk of abuse see: Duty of care, Responding to Student Sexual Assault and Risk Management under Department resources below.

Forming a 'reasonable belief'

A 'reasonable belief' or a 'belief on reasonable grounds' is not the same as having proof but is more than mere rumour or speculation.

A 'reasonable belief' is formed if a reasonable person in the same position would have formed the belief on the same grounds. For example, a 'reasonable belief' might be formed if:

- a child states that they have been physically or sexually abused,
- a child states that they know someone who has been physically or sexually abused (sometimes the child may be talking about themselves),
- someone who knows a child states that the child has been physically or sexually abused,
- professional observations of the child's behaviour or development leads a professional to form a belief that the child has been physically or sexually abused or is likely to be abused, and
- signs of abuse lead to a belief that the child has been physically or sexually abused.

Types of child abuse and indicators of harm

Child abuse can have a significant effect on a child's physical or emotional health, development and wellbeing.

Types of child abuse include:

- physical abuse,
- sexual abuse,
- emotional abuse,
- neglect,
- medical neglect,
- family violence,
- human trafficking (including forced marriage), and
- sexual exploitation (including pornography and prostitution).

A report should be made to DHHS Child Protection in circumstances where, for example:

- the child is engaging in risk-taking behaviour,
- female genital mutilation has occurred, or there is a risk of it occurring,
- there is a risk to an unborn child,
- a child or young person is exhibiting sexually-abusive behaviours, and
• there are indications that a child is being groomed. For information see: Department of Justice and Regulation – Grooming offence.

There are many indicators of child abuse and neglect. The presence of a single indicator, or even several indicators, does not prove that abuse or neglect has occurred. However, the repeated occurrence of an indicator, or the occurrence of several indicators together, should alert teachers to the possibility of child abuse and neglect.

**Note:** For full definitions for all of the types of child abuse and a comprehensive list of the indicators of harm, see: Appendix 2 in *Protecting the safety and wellbeing of children and young people* under Department resources below.

**When to Report**
The following table sets out when to report a concern that a child or a young person has been abused, or is in need of protection.

**Significant concerns about wellbeing of a child**
Any person may make a report if they have significant concerns for the wellbeing of a child.

**Reasonable belief that a sexual offence has been committed by an adult against a child under 16.**
- Any adult who forms a reasonable belief that a sexual offence has been committed in Victoria by an adult against a child under 16 must report that information to police. It is a criminal offence not to make a report, except in the following circumstances:
  - The victim is 16 years of age or older and does not have an intellectual disability that limits his/her capacity to make an informed decision; and he/she does not want the information reported to the police
  - The victim has disclosed the information in confidence in the course of a therapeutic relationship with you as a registered medical practitioner or counsellor.
  - The victim turned 16 years of age before 27 October 2014.

Reasonable excuses for failing to comply with the requirement include:
- a reasonable belief that the information has already been reported to police or DHHS Child Protection disclosing all of the information,
- a reasonable fear that the disclosure will place someone (other than the alleged perpetrator) at risk of harm.
